

WE ALL NEED UPDATED LEGAL PROTECTION TO ADDRESS THE CONSTANT EXPOSURE WE HAVE TO SMART METER RADIATION.

This case can advance future cases, since we need new case law to establish a legal precedent for injuries resulting from unchosen wireless radiation foisted upon us.

- I respectfully plea for you to join me and help fund this crucial, precedent-setting fight, which is for all of us. If I win, we all benefit.

- Please educate yourself on radiation injuries and protect yourself and your loved ones. I want you to join the fight, not the list of the injured.
